Less than ADT

That is more than one year of monitoring!

Price includes QSP (Quality Service Plan). QSP is ADT's Extended Limited Warranty. It clearly states on ADT's website that the "System to remain property of ADT". If ADT installs the Honeywell Lynx system as depicted on their web site, Honeywell will replace any defective part for a period of five years at no charge to the installing company. If ADT uses other products (which they reserve the right to substitute with (DSC is owned by Tyco which owns ADT)) the warranty is one year.

Why would anyone pay an alarm company to maintain *their* equipment?
